Amy

Wednesday and Thursday are the Salish Sea Conference. Erika is going to that, and I am guessing John will go as well if he can. Seeing that Erika is looking at the transloading facility as part of her 401 cert memo, it would not be very useful to go on a site tour without her.

**Subject:** PPM Site Visit - This Wednesday?

Hi Becky,

Do you and your team have time this Wednesday to take a tour of the PPM facility? PPM has a 2-3 week project starting on May 5 and it will be very busy at their facility during that time. We thought we should try and schedule a site visit this week (Wednesday preferred) so EPA can get an idea of the facility layout and review the proposed transloading work and staging areas. I know we discussed doing this a couple of weeks from now after we receive EPA comments but given PPM's other project work we felt like we should expedite the initial site visit.

Let me know if you have any availability.

Thanks,  
Amy
